## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 24 May 2005 has been entered.
2. Claims 2-4, 6-15, 17-25, 27-29, 31-41 and 43-55 are pending in this application. Claims 4, 10, 23, 29, 35, 49 and 53-55 are independent claims. In the Amendment filed 24 May 2005 with the RCE, claims 4, 10, 23, 29, 35, 49 and 53-55 were amended. This action is non-final.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2-4, 6-15, 17-25, 27-29, 31-41 and 43-55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-4, 6-15, 17-25, 27-29, 31-41 and 43-55 contain the trademark/trade name SAP. Where a trademark or trade name is used in a claim as a limitation to

identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a SAP business information system and, accordingly, the identification/description is indefinite.

Furthermore, the claims in question also recite, "wherein the SAP business information system comprises an SAP Executive Information System (EIS)." Page 4 of the instant specification states:

"EIS", as referred to herein, includes not only the specific versions of EIS that are currently operational, but also includes all future versions of EIS as well as any other reporting program or module of SAP that is intended to operate on data stored in a business data warehouse.  
(Page 4, lines 13-16)

This definition of "EIS" creates an open-ended set that is, by its very nature, indefinite. The scope of these claims cannot be properly established because one cannot possibly know "all future versions of EIS." The claims are therefore indefinite.

#### ***Response to Arguments***

4. Applicant's arguments, see pages 15-22, filed 24 May 2005, with respect to the rejection(s) of claim(s) 2-4, 6-15, 17-25, 27-29, 31-41 and 43-55 under 35 U.S.C. §103(a) [Ziglin in view of Hendricks] have been fully considered and are persuasive in

light of the Amendments filed therewith. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of indefinite claim terms, as above. Since the examiner is unable to fully determine the scope of the claimed invention for the reasons set forth above, no additional prior art has been applied to the claims at this time. Should the aforementioned issues (35 U.S.C. §112, second paragraph) be resolved at a later time, the examiner will then re-evaluate the claims in light of the prior art.
